

European Commission reviews of acquisitions part of the process

Tomorrow, UPS expects the European Commission to issue a statement regarding the transition of the process to Phase II for our proposed acquisition of TNT Express.

- The proposed acquisition will provide expanded access to the global marketplace and a unique set of services, enabling growth opportunities for our customers' businesses.
- Maintaining focus on excellent service will be a top priority during the integration.
- Best-in-class technology can help customers gain a competitive advantage and will remain a cornerstone of the acquisition.

➔ **Both UPS and TNT Express share a commitment to sustainability and humanitarian outreach.**
