

WE'VE BEEN WAITING 15 MONTHS FOR OUR MONEY.

THE PATIENCE IS OVER!

It's been a year since the change in management on UPS HUB, after they were fined 86 million of Euros by the judiciary (still a bit low if we think about the 35 years of abuse!)

Nevertheless, after they have liquidated the past company and promised the sea and mountain to continue the flow of work in the industry, still, UPS delayed the settlement for over a year! Rather, UPS has brutalized the workplace and for every problem that occurs with the third party involved, they take revenge and profits on the third-party companies, so the blame always fall on us. They earned 1.8 million in Euros last year, **+5566,21% (2024 budget)** on trade union conflicts.

Greed comes with eating! The multinational company is this bold to think that we would like to continue working with the little money we receive; though, in 2024 they already have recovered their profit **(25 million Euros)**.

The new company in Hub, SCS srl (same company, just changed the name) is not exempted from the responsibility, they continue to neglect the existing agreement . . .

Enough is Enough! If we want to achieve what is meant for us we have to be united, so we invite all of workers, members and non-members to participate:

2025 OCTOBER 15 ASSEMBLY

From 7.30 to 9.00

From 17.30 to 19.00

Subject: ● Unpaid TFR and salary quota ● Broken shift ● One-time and national UPS compensation ● Lunch ticket ● Professionalism allowance ● PDR
